SDG 16

PEACE, JUSTICE AND STRONG INSTITUTIONS

Institutional Impact Report 2026

Al-Iraqia University

Integrity • Transparency • Accountability • Ethics • Digital Governance

Al-Iraqia University contributes to SDG 16 through integrity and anti-corruption measures, complaint and whistleblowing channels, financial transparency, data protection, ethical standards and digital governance mechanisms that strengthen institutional accountability.

Reporting: year 2025–2026

1. Executive Summary

Al-Iraqia University demonstrates a strong institutional commitment to peace, justice, integrity, and accountable governance through the implementation of anti-corruption measures, accessible complaint and whistleblowing mechanisms, financial transparency, data protection, ethical standards, and digital governance systems. These institutional practices strengthen transparency, accountability, responsible decision-making, and public trust across the University. Collectively, they contribute to building an inclusive, transparent, and well-governed academic environment founded on integrity, ethical conduct, and effective institutional management.

Institutional Capacity & Impact at a Glance

Institutional contribution at a glance

- **Integrity and Anti-Corruption:** The university documents an Anti-Corruption and Integrity System centered on integrity, transparency, accountability and responsibility.
- **Complaints, Whistleblowing and Access to Remedy:** Governance evidence provides citizen complaint forms, employee complaint forms, interview/help channels and college contact mechanisms.
- **Financial Transparency and Responsible Governance:** The 2025 financial-report evidence includes financial planning committee minutes and tables covering expenditures, allocations, revenues, transfers and savings.
- **Ethics, Data Protection and Digital Governance:** The university documents a written code of ethics, data-protection measures covering academic, personal, health, research, administrative and financial information, and digital systems that support institutional services and reporting.

2. Integrity and Anti-Corruption

The university documents an Anti-Corruption and Integrity System centered on integrity, transparency, accountability and responsibility. Awareness materials and institutional messaging emphasize prevention of administrative, financial and academic corruption through clear procedures and a value-based university environment.

3. Complaints, Whistleblowing and Access to Remedy

Governance evidence provides citizen complaint forms, employee complaint forms, interview/help channels and college contact mechanisms. These channels create accessible routes for reporting concerns and seeking institutional response.

4. Financial Transparency and Responsible Governance

The 2025 financial-report evidence includes financial planning committee minutes and tables covering expenditures, allocations, revenues, transfers and savings. The evidence states that adoption and publication were recommended to support transparency and annual monitoring. Sustainability-budget evidence separately reports a three-year average share of 1.06%.

5. Ethics, Data Protection and Digital Governance

The university documents a written code of ethics, data-protection measures covering academic, personal, health, research, administrative and financial information, and digital systems that support institutional services and reporting. These mechanisms strengthen responsible information management and transparent administration.

Figure 1. Institutional Electronic Forms and Complaint Channels at Al-Iraqia University.

The University's official electronic forms portal provides accessible digital channels for institutional services and communication, including citizen complaint forms, employee complaint forms, and requests for meetings with the University President. These mechanisms enable students, staff, and citizens to submit concerns, complaints, and requests electronically, supporting accessible grievance procedures, institutional responsiveness, transparency, and digital governance.
